- Sustainable Procurement – Procurement Process - Manage performance and relationship
- Sustainable Procurement – Procurement Process - Review and learn
- Session Summary & Evaluation

Supply Cross River Aims and Objectives.

A programme, running until August 2011, to support Small & Medium Enterprises (SMEs) to access new contracts and increase supplier diversity amongst buyers from both the private and public sector and improve responsible procurement in London.

Funding is provided by the European Regional Development Fund and the four London Boroughs of Lambeth, Southwark, Westminster & City of London.

'Supply Cross River is not just designed to help businesses in the economic downturn. By helping major local organisations to increase diversity in their supply chain, and helping SMEs to bid for and win new contracts, we will be able to bring about lasting benefits for the local economy.'
