news headlines

- › **A new standard for assessing the life cycle of greenhouse gas emissions of supply chains**
Discover more about BSI, Carbon Trust, and Defra's new (PAS) 2050:2008 specification, a robust and consistent standard for measuring the carbon footprint of supply chains.
- › **Muslim community publishes a new guide on how to be greener**
Find out more about the green guide, created to help Muslim households understand the impact of climate change, using Islamic references to inspire behaviour change.
- › **Glorious Good Wood**
Understand why the Chair of the Commission for a Sustainable London 2012 believes wood should be the building material of choice for organisations concerned about their carbon footprint.
- › **Warming to the climate change agenda**
Thought provoking conclusions of a survey carried out by Euromonitor across all 27 states of the EU, naming and shaming which countries are doing most and least about the effects of global warming.
- › **Should your business be rewarded for its sustainable business practice?**
Entries are now open for the prestigious the City of London Corporation's Sustainable City awards. Give your business the chance to achieve recognition for its outstanding achievements in sustainability.
