

Sustainable Solutions 'Meet the Buyers'

Guaranteed meetings with major UK buyers who are actively looking for innovative sustainable products & services

Tuesday 23rd June 2009
City of Manchester Stadium, Eastlands

Worked hard to lessen the environmental impact of your product or service? Committed to sustainability issues?

If so, then more than 20 major buyers want to meet YOU!

Pre-arranged meetings with major UK buyers who are actively looking for innovative sustainable products and services

Sustainable Solutions 'Meet the Buyers' provides you with a unique and cost-effective method of presenting your sustainable products and services directly to major UK buyers. Key decision makers and budget holders from more than 20 private and public sector organisations will be conducting introductory meetings with innovative environmental and sustainable suppliers like you.

We find the buyers for you which saves you time and money – no cold calling or marketing needed!

Over the last three months we have recruited more than 20 major UK buyers who are actively looking for suppliers who can help improve the sustainability of their supply chain. This unique event reverses the traditional exhibition concept in that buyers have a meeting booth on the day, where you will be able to conduct your pre-arranged appointments. These buyers have committed to this event with the sole aim of meeting potential suppliers, saving you days of research, frustrating cold calling and wasted marketing budget.

20 major buyers are looking to meet companies who can offer a clear environmental advantage

The buyers attending are looking for new suppliers who can demonstrate a clear sustainability advantage over the competition. If your product or service has been developed with a view to lessen your environmental impact, for just £75 +VAT per delegate, this could be the event for you.

Building on Success

Following on from the last Sustainable Solutions event Action Sustainability will be holding their second ever Sustainable Solutions 'Meet the Buyers' to take place in Manchester. These events have proven to be highly successful bringing together 28 major private and public sector buyers with over 100 suppliers. Past events held across the country have been extremely lucrative, generating in excess of £2.5 million of new business.

Book your place NOW on the reply card below – appointments are limited.

Private and public sector buyers who you can have face to face sales meetings with include:

- **United Utilities**

Who is Action Sustainability?

Action Sustainability is a social enterprise set up to lead and inspire sustainable procurement.

We offer specialist expertise and services to public and private sector organisations interested in improving the impact of their supply chain on society. We manage events and seminars to promote more sustainable procurement. We also provide training, consultancy, research, benchmarking, case studies and support.

'To date we have won over £500k worth of business at Sustainable Solutions events! Excellent value for money'

Bruce Le Gros,
Windsor Waste Ltd

'We had over 8 pre-arranged meetings with buyers actively looking for sustainable solutions to improve their supply chains'

Steve Walmsley, TiVA
